EXPLANATORY NOTE.

1. Part (*i*) includes common medical preparations which contain the same active ingredient as many preparations manufactured by different firms under different names. The maximum prices specified in Part (*i*) will apply to any such preparation which is not included in Part (*ii*) under its proprietory name. Pharmaceutical chemicals are shown in Part (*iii*).

2. The ceiling prices are maximum prices and any controlled drug may be sold at a lower price than the ceiling price fixed for the drug.

SCHEDULE A.

(*See* clauses 2 and 11).

EXPLANATORY NOTE.

The Different Parts of the Schedule.

1. Part (i) includes common medical preparations which contain the same active ingredient as many preparations manufactured by the different firms under different names. The maximum prices specified in Part (i) will apply to any such preparation which is not included in Part (ii) under its proprietary name. Pharmaceutical chemicals are shown in Part (iii). Infant and Patient Foods and allied articles are shown in Part (iv).

Prices to be treated as maxima.

2. The ceiling prices are maximum prices and any controlled drug may be sold at a lower price than the ceiling price fixed for the drug.

Part (iii) Prices.

3. The prices fixed in Part (iii) are for chemicals of standard pharmacopoeial quality. They do not apply to chemicals sold for industrial purposes or to chemicals of inferior quality, the prices for which should be considerably cheaper. On the other hand these prices do not also apply to chemicals of a higher standard of purity which are intended for laboratory work or for use as analytical re-agents.

Wholesale and Retail prices to be nett.

4. Except as provided in paragraphs 8, 9 and 10 the ceiling retail prices for drugs purchased at the retailer's place of business are inclusive of all incidental charges such as cost of containers, freight and packing. The ceiling wholesale prices in Parts (i), (ii) and (iv) are inclusive of incidental charges such as cost of containers, packing and goods freight, but if the wholesaler dispatches the consignment by passenger train or by post he shall be entitled, in addition, to recover from the consignee not more than half the difference between the freight cost or postage actually incurred and the freight cost which would have been incurred if the consignment had been sent by goods train.

Wholesale prices for Assam.

5. In the case of drugs consigned for delivery to Assam retailers through the Civil Supply Agency set up by the Government of Assam in Calcutta, the wholesale price of drugs specified in Parts (i) and (ii) of the Schedule shall be fixed at 15 per cent less than the retail price notwithstanding the prices specified in column 3 of Parts (i) and (ii) of the Schedule. The wholesale price is inclusive of packing and freight to Calcutta.

Prices of original packings not specified in Parts (i), (ii) and (iv).

6. When a drug specified in Part (i), (ii) or (iv) is sold in an original manufacturer's or importer's packing which is not specified in the Schedule, the price of the unspecified packing should be calculated on the basis set out in clause 9(*b*) of the Order, provided that the price so fixed does not exceed the price calculated *pro rata* on the price of the next smaller packing specified.

Prices of Split quantities of drugs in Parts (i) (ii) and (iv).

7. When a drug specified in Part (i), (ii) or (iv) is sold by a retailer in loose quantities, the price for such loose quantities should be worked out *pro rata* on the price of the packing specified or where two or more packings are specified *pro rata* on the price of the next larger packing specified. If the loose quantity is supplied in a container the retailer may charge extra for the container up to the maximum laid down in para 10(a) of the Explanatory Note.

Permissible extra charges for all drugs.

8. If the retailer has to pay a local octroi, terminal tax or sales tax amounting to one per cent or more of the retail value of the drug sold, he may charge extra for such octroi, terminal tax or sales tax provided that the extra charge is separately noted in the cash memo, given to the purchaser. Similarly, if a wholesaler has paid octroi, terminal tax or sales tax amounting to one per cent or more of the retail value of the drugs sold to a retailer who does not also have to pay any such octroi or tax in respect of the same consignment, he may charge extra for such octroi or tax from the retailer and the retailer may recover the extra charge from the purchaser provided that the extra charge is separately noted in the cash memo given by the retailer.

Permissible extra charges for drugs in Parts (i), (ii) and (iv).

9. Retailers whose place of business is situated in the following hill stations where extra transport costs have to be incurred may charge a maximum of five per cent, more than the retail prices specified in Parts (i) (ii) and (iv) of the Schedule in addition to any extra charge which they are entitled to make under paragraph 8, provided that the extra charge is separately noted in the cash memo, given to the purchaser :—

(*a*) maximum prices have been shown for the most commonly demanded quantities as well as drugs sold in their original packings. Where other split quantities are sold the ceiling price should be worked out *pro rata* according to the prices fixed for the nearest split quantity specified subject to a minimum of two annas. When ceiling prices sre specified for chemicals sold loose or in packets or cartons and when split quantities are sold the wholesaler or retailer may charge

extra up to the following maxima for containers of the types specified in which such chemicals are sold by him :—

Bottles, phials, jars or pots with cork, stoppers or covers (to contain upto 2 oz.)	As. 2 each.
Bottles, phials, jars or pots with cork, stoppers or covers (to contain 3 to 8 oz.)	As. 6 each.

Prices of original packings not specified in Part (iii).

11. (*a*) When a drug specified in Part (iii) is supplied by the manufacturer, importer or wholesaler in original containers which are not otherwise specified in the schedule the following formula should be used to arrive at the controlled wholesale and retail prices :—

The price of 8 ozs. in cartons or bottles should be 5/8 of the price specified for one lb. cartons or bottles respectively.

The price of 4 ozs. in cartons or bottles should be 3/8 of the price specified for one lb. cartons or bottles respectively.

The price of 1 oz. in cartons or bottles should be 1/8 of the price specified for one lb. cartons or bottles respectively.

(*b*) The prices specified in Part (iii) are for one lb. original cartons or parcels unless otherwise stated. Where the price of a drug is given in bottle packing the same price will apply to the same drug packed in a tin unless otherwise stated. Where a drug is sold in a one lb. bottle or tin and no price is specified for such packing, the bottle or tin may be sold at 8 annas more than the price specified for cartons, parcels or loose quantities. Similarly, where the price specified is for a 1 lb. bottle or tin and a drug is sold in a one lb. carton or parcel or in loose quantities, the controlled price of the drug shall be deemed to be reduced by 8 annas.

Rounding off of pies.

12. If fractions of an anna appear in the total price of any drug when calculated under paragraphs 5, 6, 7, 8, 9, 10(*a*) and 11(*a*) of the Explanatory Note, the total price so calculated should be rounded off to the next higher anna.

SCHEDULE A.

(*See* clauses 2 and 11)

EXPLANATORY NOTE.

The Different Parts of the Schedule.

1. Part (i) includes common medical preparations which contain the same active ingredient as many preparations manufactured by the different firms under different names. The maximum prices specified in Part (i) will apply to any such preparation which is not included in Part (ii) under its proprietary name. Pharmaceutical chemicals are shown in Part (iii). Infant and Patient Foods and allied articles are shown in Part (iv).

Prices to be treated as maxima.

2. The ceiling prices are maximum prices and any controlled drug may be sold at a lower price than the ceiling price fixed for the drug.

Part (iii) Prices.

3. The prices fixed in Part (iii) are for chemicals of standard pharmacopoeial quality. They do not apply to chemicals sold for industrial purposes or to chemicals of inferior quality, the prices for which should be considerably cheaper. On the other hand these prices do not also apply to chemicals of a higher standard of purity which are intended for laboratory work or for use as analytical re-agents.

Wholesale and Retail prices to be nett.

4. Except as provided in paragraphs 8, 9 and 10 the ceiling retail prices for drugs purchased at the retailer's place of business are inclusive of all incidental charges such as cost of containers, freight and packing. The ceiling wholesale prices in Parts (i), (ii) and (iv) are inclusive of incidental charges such as cost of containers, packing and goods freight, but if the wholesaler dispatches the consignment by passenger train or by post he shall be entitled, in addition, to recover from the consignee not more than half the difference between the freight cost or postage actually incurred and the freight cost which would have been incurred if the consignment had been sent by goods train.

Wholesale prices for Assam.

5. In the case of drugs consigned for delivery to Assam retailers through the Civil Supply Agency set up by the Government of Assam in Calcutta, the wholesale price of drugs specified in Parts (i) and (ii) of the Schedule shall be fixed at 15 per cent less than the retail price notwithstanding the prices specified in column 3 of Parts (i) and (ii) of the Schedule. The wholesale price is inclusive of packing and freight to Calcutta.

Prices of original packings not specified in Parts (i), (ii) and (iv).

6. When a drug specified in Part (i), (ii) or (iv) is sold in an original manufacturer's or importer's packing which is not specified in the Schedule, the price of the unspecified packing should be calculated on the basis set out in clause 9(*b*) of the Order, provided that the price so fixed does not exceed the price calculated *pro rata* on the price of the next smaller packing specified.

195

Prices of Split quantities of drugs in Parts (i) (ii) and (iv).

7. When a drug specified in Part (i), (ii) or (iv) is sold by a retailer in loose quantities, the price for such loose quantities should be worked out *pro rata* on the price of the packing specified or where two or more packings are specified *pro rata* on the price of the next larger packing specified. If the loose quantity is supplied in a container the retailer may charge extra for the container up to the maximum laid down in para 10(a) of the Explanatory Note.

Permissible extra charges for all drugs.

8. If the retailer has to pay a local octroi, terminal tax or sales tax amounting to one per cent or more of the retail value of the drug sold, he may charge extra for such octroi, terminal tax or sales tax provided that the extra charge is separately noted in the cash memo, given to the purchaser. Similarly, if a wholesaler has paid octroi, terminal tax or sales tax amounting to one per cent or more of the retail value of the drugs sold to a retailer who does not also have to pay any such octroi or tax in respect of the same consignment, he may charge extra for such octroi or tax from the retailer and the retailer may recover the extra charge from the purchaser provided that the extra charge is separately noted in the cash memo given by the retailer.

Permissible extra charges for drugs in Parts (i), (ii) and (iv).

9. Retailers whose place of business is situated in the following hill stations where extra transport costs have to be incurred may charge a maximum of five per cent, more than the retail prices specified in Parts (i) (ii) and (iv) of the Schedule in addition to any extra charge which they are entitled to make under paragraph 8, provided that the extra charge is separately noted in the cash memo, given to the purchaser :—

Prices of original packings not specified in Part (iii).

11. (*a*) When a drug specified in Part (iii) is supplied by the manufacturer, importer or wholesaler in original containers which are not otherwise specified in the schedule the following formula should be used to arrive at the controlled wholesale and retail prices :—

The price of 8 ozs. in cartons or bottles should be 5/8 of the price specified for one lb. cartons or bottles respectively.

The price of 4 ozs. in cartons or bottles should be 3/8 of the price specified for one lb. cartons or bottles respectively.

The price of 1 oz. in cartons or bottles should be 1/8 of the price specified for one lb. cartons or bottles respectively.

(*b*) The prices specified in Part (iii) are for one lb. original cartons or parcels unless otherwise stated. Where the price of a drug is given in bottle packing the same price will apply to the same drug packed in a tin unless otherwise stated. Where a drug is sold in a one lb. bottle or tin and no price is specified for such packing, the bottle or tin may be sold at 8 annas more than the price specified for cartons, parcels or loose quantities. Similarly, where the price specified is for a 1 lb. bottle or tin and a drug is sold in a one lb. carton or parcel or in loose quantities, the controlled price of the drug shall be deemed to be reduced by 8 annas.

Rounding off of pies.

12. If fractions of an anna appear in the total price of any drug when calculated under paragraphs 5, 6, 7, 8, 9, 10(*a*) and 11(*a*) of the Explanatory Note, the total price so calculated should be rounded off to the next higher anna.

SCHEDULE A.

(*See* CLAUSES 2, 9 and 10).

Explanatory Note.—In this Schedule drugs are grouped in three Parts. Part I includes common medical preparations which contain the same sole active ingredients but are often manufactured under different names by different firms. A uniform ceiling price has been fixed for each such preparation, but where the manufacturer's listed retail price is less than this figure, that price shall be deemed to be the ceiling price for that particular manufacturer's drug. Unless otherwise stated, all preparations which contain any of the substances mentioned in Part I of the Schedule as the sole active ingredient are subject to the ceiling price fixed for such substance. Part II includes other preparations for each of which a ceiling price has been fixed. Basic pharmaceutical chemicals are shown in Part III.

2. Certain drugs are indicated by an asterisk with reference to Clause 10 of the Order. These do *not* require to be marked in the manner specified in Schedule B.

3. The ceiling prices include the cost of the container, and no extra amount may be charged therefor.

4. In the case of drugs which are sold in quantities or sizes different from those shown in column 2, the ceiling price shall be calculated *pro rata* on the price for the smallest unit: provided that as regards drugs specified in Part III, which are sold in quantities *smaller* than those shown in column 2 and the dealer has to break bulk, the ceiling price stated in columns 3 and 4, shall be deemed to be increased by 20 per cent, and an additional charge may be made for the container in which the smaller quantity is sold according to the following scale:—

Bottles, phials, jars or pots with cork stoppers or covers (to contain up to 2 oz.)	As. 4 each.
Bottles, phials, jars or pots with cork stoppers or covers (to contain 3—8 oz.)	As. 6 each
Bottles, phials, jars or pots with cork stoppers or covers (to contain over 8 oz.)	As. 8 each

4. Where a maintenance order has, whether before or after the passing of this Act, been made against any person by any Court in any reciprocating territory, and a certified copy of the order has been transmitted by the proper authority of that territory to the Government, the Government shall send a copy of the order to the prescribed officer of a Court in Mysore for registration, and on receipt thereof, the order shall be registered in the prescribed manner.

6. (1) Where application is made to a Court of summary jurisdiction in Mysore for a maintenance order against any person, and it is proved that that person is resident in a reciprocating territory, the Court may, in the absence of that person, if after hearing the evidence it is satisfied of the justice of the application, make any such order as it might have made if that person had wilfully neglected to attend the Court; but in such caser the order shall be provisional only and shall have no effect unless and until confirmed by a competent Court in such territory.

(4) Where any such provisional order has come before a Court in a reciprocating territory for confirmation, and the order has by that Court been remitted to the Court of summary jurisdiction which made the order for the purpose of taking further evidence, that Court shall, after giving the prescribed notice, proceed to take the evidence in like manner and subject to the like conditions as the evidence in support of the original application.

(5) If it appears to the Court hearing such evidence that the order ought not to have been made, the Court may rescind the order, but in any other case, the depositions shall be sent to the Government and dealt with in like manner as the original depositions.

(2) A summons issued under sub-section (1) shall, for all purposes, be deemed to be a summons issued by the Court in the exercise of its original criminal jurisdiction.

(3) At the hearing it shall be open to the person to whom the summons was issued to raise any defence which he might have raised in the original proceedings had he been a party thereto, but no other defence, and the certificate from the Court which made the provisional order stating the grounds on which the making of the order might have been opposed if the person against whom the order was made had been a party to the proceedings shall be conclusive evidence that those grounds are grounds on which objection may be taken.

(4) If at the hearing the person served with summons does not appear or, on appearing, fails to satisfy the Court that the order ought not to be confirmed, the Court may, notwithstanding any pecuniary limit imposed on its power by any law for the time being in force in Mysore, confirm the order either without modification or with such modifications as to the Court, after hearing the evidence, may seem just:

361

Provided that no sum shall be awarded as maintenance under this section, or shall be recoverable as such, at a rate exceeding that proposed in the provisional order.

(5) If the person to whom the summons was issued appears at the hearing and satisfies the Court that for the purpose of any defence it is necessary to remit the case to the Court which made the provisional order for the taking of any further evidence, the Court may for that purpose send a certified copy of the record to the Government for transmission to that Court through the proper authority of the reciprocating territory, and may adjourn the proceedings.

(6) Where a provisional order has been confirmed under this section, it may be varied or rescinded in like manner as if it had originally been made by the confirming Court, and where on an application for rescission or variation the Court is satisfied that it is necessary to remit the case to the Court which made the provisional order for the purpose of taking any further evidence, the Court may for the purpose send a certified copy of the record to the Government for transmission to that Court through the proper authority for the reciprocating territory and may adjourn the proceedings.

Proof of documents signed by officers of Court.

10. For the purposes of this Act any document purporting to be signed by a judge or officer of a Court outside Mysore shall, until the contrary is proved, be deemed to have been so signed without proof of the signature or judicial or official character of the person

362

appearing to have signed it, and the officer of a Court by whom a document is signed shall, until the contrary is proved, be deemed to have been the proper officer of the Court to sign the document.

Depositions to be evidence.
